In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the of the Companies Act, 2013 (*"the Act"*) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, and profit/loss, and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this audit report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we conclude

that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Standalone Financial Statements

The Company's management and Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. The Board of Directors is also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the standalone financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are

inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issues by the Institute of Chartered Accountants of India.

Summary of significant accounting policies and other explanatory information for the year ended 31st March, 2024.

1. Significant Accounting Policies

i. Basis of Preparation:

The financial statements have been prepared to comply in all material respects with the Accounting Standards notified by the Companies (Accounting Standards) Rules 2006 (as amended) and the relevant provisions of the Companies Act 2013. The financial statements have been prepared on going concern basis in accordance with accounting principles generally accepted in India. Further, the financial statements have been prepared on historical cost basis.

The financial statements have been prepared using the significant accounting policies and measurement bases summarized below. These were used throughout all periods presented in the financial statements.

ii. Current Vs Non-Current Classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Companies Act 2013. Deferred tax assets and liabilities are classified as non-current assets and non-current liabilities, as the case may be.

iii. Property, Plant and Equipment & Intangible Assets

(a) Property, plant and equipment:

Property, plant and equipment (PPE) are stated at acquisition cost, net of accumulated depreciation and accumulated impairment losses, if any. Freehold land is carried at cost. The cost of a PPE item includes its purchase price, borrowing cost if capitalization criteria are met, import duties and other non-refundable purchase taxes, and expenditure that is directly attributable to items for bringing them to the location and condition necessary for it to be capable of operating. Trade discounts and rebates are deducted in arriving at the purchase price. Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress".

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance cost are charged to the statement of profit and loss during the period in which they are incurred.

Property, plant and equipment are derecognized from financial statements, either on disposal or when no economic benefits are expected from its use or disposal. Gains and losses on disposals (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) are included in the statement of profit and loss.

(b) Intangible Assets:

Intangible assets acquired separately are recorded at cost following initial recognition. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. The cost of capitalized software is amortized over a period in the five years from the date of its acquisition. The amortisation expense on intangible assets is recognised in the Statement of Profit and Loss.

Intangible assets are de-recognised upon disposal or when no further economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset is recognised in the statement of profit and loss.

The Company depreciates its property, plant and equipment over the useful life in the manner prescribed in Schedule II to the Act. The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.

Depreciation on property, plant and equipment has been provided using the written down value method based on the useful lives of the assets as described below.

vi. Foreign Currency Transactions

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange at the reporting date. Foreign currency monetary items are converted to functional currency using the closing rate. Exchange differences arising on settlement or restatement as at

reporting date of monetary items are recognised in the Statement of Profit and Loss. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transaction.

vii. Inventories

Inventories including work-in-progress are stated at lower of cost and net realizable value. Cost is computed on a weighted average basis. The cost comprises purchase price, duties, transport costs and other costs including appropriate production overheads in the case of finished goods and work in progress, incurred in bringing such inventories to their present location and condition. Trade discounts or rebates are deducted in determining the costs of purchase. Net realisable value is the estimated selling price less all estimated costs of completion and costs necessary to make the sale.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

viii. Revenue Recognition

Revenue from sale of goods is recognised when all the significant risks and rewards of ownership in the goods are transferred to the buyer and there is no unfulfilled obligation. The company retains no effective control of the goods transferred and no significant uncertainty exists regarding the amount of the consideration that will be received from the sale of goods.

Revenue is measured based on the transaction price, which is the consideration the Company expects to be entitled in exchange for transferring promised goods, adjusted for returns, trade discounts and rebates. Sales are exclusive of goods and service tax. Revenues for services are recognized in accordance with the terms of contract when the services are rendered and the related costs are incurred.

Interest income is recognized on time proportion basis taking into account the amount outstanding and the rate applicable, inclusive of related tax deducted at source. Dividend income is recognized when the right to receive dividend is established. Other incomes have been recognized on accrual basis in the financial statements, except when there is uncertainty of collection.

ix. Employee Benefits

Short term employee benefits are recognised as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which the related service is rendered. The contributions remitted to government administered Provident and Pension Fund on behalf of its employees in accordance with the relevant statute are charged to the Statement of Profit and Loss as and when due. The Company has no further obligations for future Provident/ Pension fund benefits other than its monthly contributions

x. Borrowing Costs

Borrowing consists of interest and other costs incurred in connection with the borrowing of funds. Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognized in the Statement of Profit and Loss as incurred.

xi. Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company obtains substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset. At the lease commencement date, the Company recognizes a right-of-use asset at cost and a corresponding lease liability. Right-of-use assets are depreciated on a straight-line basis from the commencement date to the earlier of the lease term or the useful life of the underlying asset.

xii. Taxation

i) Current Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the applicable income tax laws of India. Taxable profit differs from 'profit before tax' as reported in the standalone statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

ii) Deferred Tax

Deferred tax is provided on temporary differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable income. Deferred tax assets on unrealized tax losses are recognised to the extent that it is probable that future taxable profit will be available to utilise the underlying tax losses. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date

xiii. Provisions and Contingent Liabilities

The company recognizes a provision when there is a present obligation as a result of a past event, it is probable that an outflow of resources will be required to settle the obligation and in respect of which reliable estimate can be made.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a Contingent liability but discloses its existence in the financial statements.

xiv. Significant accounting judgments, estimates and assumptions

The preparation of the Company's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosures and the disclosure of contingent liabilities.
